

Sprint 0 Plan - TimeLime - Team Shit Post - 9/22/18

Revision- 0 - 0

Goal:

Implement the basics of registering users including login/logout. Create user page which will require designing page, basic user profile information, as well as posting text posts.

Task listing:

0. As a user, I want a website that I can log into
 - Configure and set up backend stuff **(8)**
 - Install server, hosting website, interact with it, and connect
 1. As a user, I want to have my own account so I can interact with the website
 - Enable account creation **(5)**
 - Enable login **(5)**
 2. As a user I want a page where I can make text posts and look at my profile
 - Create a profile page which shows user info and where posts would go **(13)**
 - Design the layout and user space where it shows their icon
 - Enable posts to be stored in database and to be shown on user profile **(8)**
-

Team roles:

Caesar: Team Member, Developer

Donovan: Project Owner, Team Member, Developer

Kenji: Team Member, Developer

Mia: SCRUM Master, Team Member, Developer, Designer

Initial task assignment:

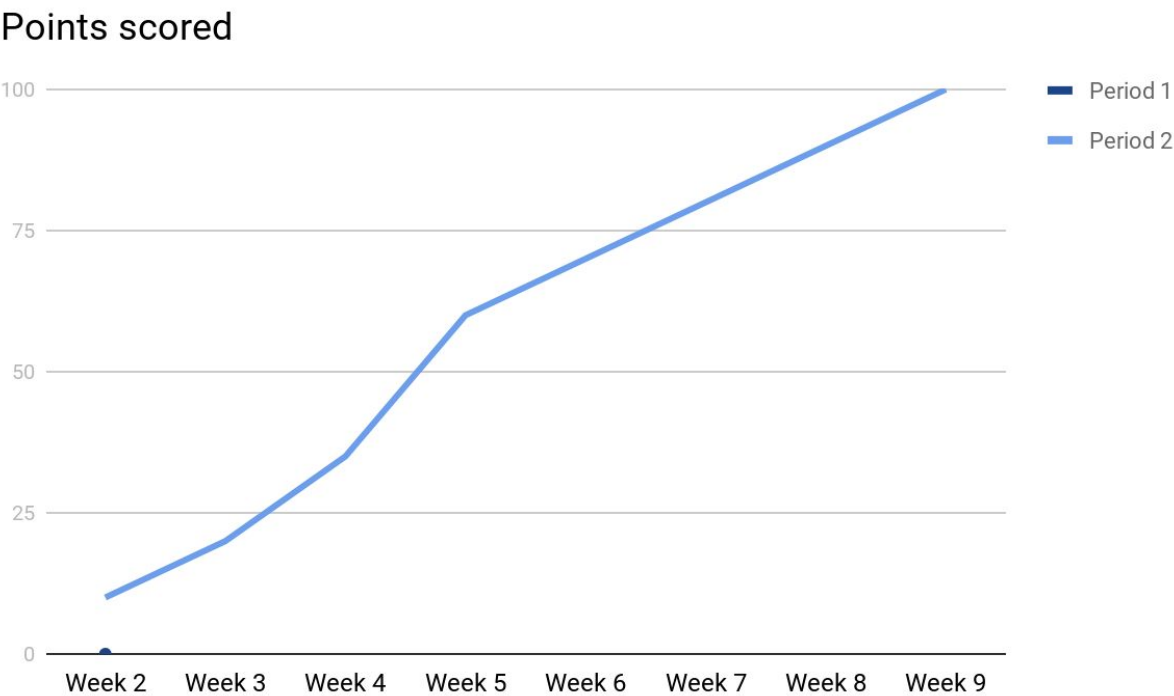

Caesar: User Story 1 Tasks a & b

Donovan: User Story 0 Task a

Kenji: User Story 2 Task b

Mia: User Story 2, Task a

Initial burnup chart:

Initial scrum board:

User Stories	Tasks Not Started	Tasks in Progress	Task Completed
As a user, I want a website that I can log into	Configure and set up backend stuff		
As a user, I want to have my own account so I can interact with the website	Enable account creation		
	Enable login		
As a user I want a page where I can make text posts and look at my profile	Create a profile page which shows user info and where posts would go		
	Enable posts to be stored in database and to be shown on user profile		

Scrum times:

Thursdays: 3:30pm

Sundays: 5:30pm

Tuesdays: 3:30pm
