7. Enable friendships between users
8. Unfriend users
9. Create a timeline
10. Comments
11. Reacts
12. Messaging
13. Post photos and videos

User stories for release:

As a user, I want a website that I can log into

As a user, I want to have my own account so I can interact with the website

As a user, I want a page where I can make text posts and look at my profile

As a user, I want to be able to find my friends and connect to them

As a user, I want a timeline of my friends' and my own posts so I can see them all in one place

As a user, I want to be able to comment on someone's text post

As a user, I want to be able to react to someone's text post so they know   how I feel about their text post

As a user, I want to be able to send a user a private message so that I can communicate with them privately

---

Product backlog:

Change time of automatic post deletion

Public nearby timeline — location based posts

Add groups
